

From Dr. Meg ~ Numerous requests have been made for me offer classes of a different nature that will not include learning the Touching the Light Healing but instead for use in everyday life and the understanding of Creation and life on very deep levels. I have given this serious consideration and come up with a plan. Below are the new class offerings I have come up with. If you do not wish to learn or do the healing work, please feel free to sign up for the alternative offering of a self study program. If you would love to become a certified Touching the Light Healer or Instructor, Please see below the new offering. Thank you!

I look forward to sharing my life's work with all of you who are interested. I feel that the possibilities I now offer will give everyone the possibilities that you are looking for. Thank you so much! I look forward to an amazing 2020 class year!

Learn how harmonics and energy as well as Sacred Geometry play a part in our very being. Long ago, the ancients left us everything we need to know. A map of how all things are made and work together to form reality and matter as well as communicate within that construct. How does our consciousness keep us informed about everything that is happening in creation and how does it tell creation what is happening in our experience of life? What part does our DNA really play in conjunction with our consciousness and our physical bodies? Does it play a part in our ascension? Can we really change our reality? Our lives? Our perceptions in order to live the life we really want? Oh yes we can! Find out how to use that communication system to create whatever you desire, need or want!

Come let Dr. Meg show you what is possible, what you are capable of, how and why!
