*At the Heart of All Healing is Something Miraculous...
Introducing a very special NEW Release by
Best Selling Author, Meg Blackburn Losey, Ph.D...*

Dr. Meg says: When we become out of balance with the field of creation, we begin to decay. We are no longer coordinated with the flow of creation and it begins to wall us off, compacting, even encapsulating energy around our weakest areas until we become sick or dysfunctional and our illness, our dysfunction, continues to deteriorate as blossoming doom. Decay becomes disease and our ultimate consumption from life to nothingness. If we do not become back in tune, in alignment with all of creation, it will consume us until there is nothing left.

Once we return to universal harmonization, there is a momentary bump in our energy system as it reboots. Then, we begin to pulse with the rhythm of timelessness and our healthfulness returns.

Dr. Meg is the Bestselling Author of "The Secret History of Consciousness" and the Internationally Bestselling "The Children Of Now". Her main website is spiritle.com and her internet radio show is "Cosmic Particles" LIVE every Wed. night on the Awakening Zone
